

# Thank You San Diego, for making *Business Consultants* the fastest growing office equipment company.

In 2001 we started Business Consultants with 0 customers. In just 3 short years we have grown to 1100+ customers with one simple philosophy, **"the customer comes first"**.

San Diego is growing faster than ever, with many local businesses being bought out by the "big boys". This makes it hard for customers to know who they are ultimately dealing with. Yet when we get right down to it, the customers' main concern is always going to be the bottom line.

We at Business Consultants don't think that the customer needs to sacrifice "bottom line" concerns for local support.

Our main asset has always been word of mouth, fostered by making sure we do not lose sight of that simple philosophy... **"the customer comes first"**.

We invite you to discover what our current customers have found out, that we at Business Consultants deliver on our philosophy, providing you with the best products, prices, with local customer service. Whether it be a Copystar-Kyocera copier, Muratec fax or an FP mailing machine, we will fill your needs. And remember, concerns can be answered by a simple phone call. Our reputation is built on that.

You focus on your core business, and let us worry about your office equipment.

And again, thank you for making us the fastest growing office equipment company in San Diego.

Keith C. Justus  
President, Business Consultants

PS. If you haven't experienced our service first-hand, please give us a call at **1-858-668-0809**. Let us deliver on our philosophy... **"the customer comes first"**.
